Area of Expertise

Ph.D. candidate in Computer Science with 7+ years of experience in machine learning, computer vision, and generative AI. Specialized in transformer architectures, multimodal learning, and LLM-driven applications. Proven track record in publishing research, mentoring teams, and delivering scalable AI systems with PyTorch, TensorFlow, Hugging Face, and LangChain. Skilled in translating cutting-edge research into real-world, production-grade solutions. Proficient in Python, Java, JavaScript, R, and C/C++.

Education

Northern Illinois University Dekalb, IL
Ph.D. Computer Science *Aug 2020 - Aug 2025*

Northern Illinois University Dekalb, IL
M.S. Computer Science *Jan 2018 - May 2020*

Osmania University Hyderabad, India
B.E. Computer Science *Aug 2013 - Aug 2017*

Experience

Researcher (DATA Lab, VA Lab & WASTE Lab) Jan 2018 - present
Northern Illinois University *Dekalb, IL*

- Engineered and fine-tuned large language models (LLMs) like GPT-4 Turbo, Claude-3, and Mixtral-8x7B into high-performance analytical pipelines, improving natural language reasoning and multimodal analysis accuracy.
- Architected and deployed an innovative cross-view visualization framework powered by LLMs, reducing data exploration time by 35% and improving insight discovery rates by 45% across user studies with 25+ participants.
- Developed production-ready computer vision solutions using Vision Transformers (ViT), SAM, and diffusion models, achieving significant gains in image classification and semantic segmentation tasks across diverse datasets.
- Applied advanced multimodal learning strategies including CLIP-based vectorization, GPT embeddings, and BERT-LDA hybrid models to uncover hidden patterns in large-scale datasets.
- Implemented LoRA-adapted LLMs combined with CLIP and SAM embeddings to enable domain-specific captioning, multimodal retrieval, and visual question answering with over 91% accuracy at scale.
- Engineered multi-agent automation workflows using n8n, LangChain, crewAI, Flowise, and AutoGen, reducing research review and summarization turnaround time by over 50%.
- Optimized GenAI pipelines for real-time captioning, reasoning, and topic discovery across 100K+ social media images, delivering actionable insights for public health trend analysis.
- Mentored and supervised 5 graduate students, resulting in 100% project completion rate and 3 research papers, while maintaining an innovative and collaborative research environment.

Teaching Assistant (CSCI 240 & CSCI 466) Aug 2018 - May 2020
Northern Illinois University *Dekalb, IL*

- Provided academic support to over 70 students, facilitating a deeper understanding of C/C++ programming concepts, including pointers, memory management, data structures, and SQL database management.
- Designed and evaluated assignments emphasizing efficient algorithm design, optimized database queries, and real-world problem-solving in C++ and SQL, ensuring alignment with industry standards.
- Conducted weekly sessions and personalized mentoring, improving students' problem-solving abilities and leading to a 20% increase in class performance metrics.

Quality Specialist Sep 2017 - Dec 2017

Amazon *Hyderabad, India*

- Implemented SQL and MongoDB pipelines to optimize data querying for performance bottlenecks, reducing database query latency by 30%.
- Utilized Python libraries (Pandas, NumPy, Scikit-learn) to perform detailed data cleansing, exploratory analysis, and quality assurance, significantly enhancing the reliability of critical datasets.
- Collaborated with cross-functional development teams to provide actionable, data-driven insights that improved database system performance and streamlined operations.

Projects

LLMFlow: AI-Powered Summarization of Scholarly Documents | *Python, LangChain* Jun 2024 – Dec 2024
- Integrated GPT, Claude and Llama with LangChain to generate concise summaries of large-scale research documents, reducing academic reading time.

MixArt: Generative Artwork with Stable Diffusion | *Python, Stable Diffusion, LoRA* Jan 2024 – July 2024
- Developed a pipeline for generating abstract and photorealistic art using Stable Diffusion, leveraging LoRA fine-tuning to personalize outputs for user-requested styles.

VoxCore: Voice Authentication System | *Python, Whisper, PyTorch* June 2023 – Sep 2023
- Implemented a voice authentication system using OpenAI's Whisper for transcription and custom PyTorch models for speaker verification, achieving 89% accuracy in multi-speaker environments.

InstaHealth: Fine-Tuning Caption Generation for Instagram Posts | *Python, CV* Aug. 2022 – Dec 2022
- Fine-tuned a language model to generate context-aware captions for health-related content on Instagram data, automating large-scale social media captioning.

Semantic Segmentation with SAM & Custom U-Net| *Python, CV* Jan 2021 – May 2021
- Integrated the Segment Anything Model (SAM) with a custom U-Net architecture to achieve semantic segmentation on high-resolution aerial images.

TweeTopics: Uncovering Patterns with BERT and LDA | *Python, BERT, LDA* Aug. 2020 – Dec. 2020
- Implemented BERT and LDA for deep learning text and topic modeling, employing unsupervised learning algorithms to analyze social discourse dynamics on Twitter.

SignDecoder: Real-Time Prediction of Sign Language via AI | *Python, CV* Aug. 2019 – Dec. 2019
- Created a real-time sign language prediction platform with Keras, PyTorch, and OpenCV, using CNNs and long short-term memory (LSTM) networks for facilitating communication for the hearing-impaired.

Urban Pedals: Visualizing BikeShare Dynamics in Chicago | *Python, R, Tableau* Jan. 2019 – July 2019
- Utilized Pandas, R for data analysis, and Tableau, JavaScript for visualizations, applying clustering algorithms and time-series analysis to uncover patterns in Chicago's BikeShare system, revealing urban transportation patterns.

Predicting popularity using Altmetric | *Python, ScikitLearn, API (Altmetric)* Jan. 2018 – May 2018
- Employed ScikitLearn and Python for predictive modeling using regression algorithms and decision trees to forecast future citation counts of scholarly articles using Altmetric data, identifying early impactful research.

WashAway: Your Laundry Attendant App | *AndroidStudio, Java* May. 2016 – Mar 2017
- Developed a mobile-first laundry service platform connecting users with local providers via real-time tracking, secure payment processing, and automated scheduling.

Invited Talks & Presentations

- **Fluid Multi-View Analytics: Generative Multi View Systems**, *DePaul University CDM*, Chicago, 2025.
- **iTrace: Interactive Tracing of Cross-View Data Relationships**, *University of British Columbia, BC*, 2025.
- **MSW Predictive Modeling: A comprehensive approach**, *CEET Innovation Showcase*, DeKalb, 2024
- **Multi-Class Building Classification**, *IIN Sustainability Research Conference*, Chicago, 2024
- **Toward Systematic Design Considerations of Organizing Multiple Views**, *IEEE VIS* conference, 2022
- **Predicting Patent Citations to measure Economic Impact**, *JCDL 2019*, Urbana-Champaign, 2019.
- **Utilizing Multiple Views to analyze data**, *Northern Illinois University, CSCI 658*, DeKalb, 2023.
- **Exploring COVID data using Instagram Images**, *Northern Illinois University, CSCI 656*, DeKalb, 2022.
- **Modeling the Broader Impact of Science**, *Northern Illinois University, CSCI 600*, DeKalb, 2022.
- **Organizing layout of Multiple View systems**, *Northern Illinois University, CSCI 628*, DeKalb, 2021.
- **Cross-Device interaction to explore 3D Vis**, *Northern Illinois University, CSCI 626*, DeKalb, 2021.
- **Visualizing BikeShare Dynamics in Chicago**, *Northern Illinois University, CSCI 627*, DeKalb, 2019.

Honors & Awards

- **Best Paper Honorable Mention**, *IEEE VIS*, 2022
- **Community Service Award**, DeKalb, 2019
- **Society Involvement Award**, *Honor Society*, 2020

Leadership

- **Lab Head**, *Visual Analytics Lab*, NIU, DeKalb, *2020 - present*
- **Mentor**, WASTE Lab, NIU, DeKalb, 2024
- **Chief Coordinator**, *Computer Society of MJCET*, Hyderabad, 2017
- **Leader – Web/Graphic Design Head**, *Entrepreneurship Cell, MJCET*, 2016
- **Lead Developer**, *College's Annual Technical Fest Website (Adsophos)*, 2015
